

# Fourth National Bundled Payment Summit

Mary Barton, MD, MPP  
Vice President, Performance Measurement

# Roles for quality measures in Bundles

- Guarantee minimum level of quality- Entrance gate
- Facilitate pay for performance, bonus

# Type of Measures

Transformation of health care depends on a sequence of steps

*Structure*- e.g. availability of phone, urgent visits, Care team

*Process*- Did you provide care that is well linked to outcomes, e.g. pre-op antibiotics, immunizations

*Outcome*- Easier with procedural bundles (attribution and timing). Important opportunity for developing workflow for Patient Reported Outcome measures
