# Our strategy is to deliver the Triple Aim for individuals, populations and communities

## People-Centered Health System

### Episodic Health Care Management for Individuals

Over 17K annual episodes in BPCI 2&3, CJR and Commercial Bundles

### Population Health Management

1.4M Lives in APMs across 22 Clinically Integrated Networks, including over 200K lives in all Medicare ACOs

### Community Health & Well-being

Serving those who are poor, other populations, and impacting the social determinants of health

**Better Health • Better Care • Lower Costs**

APMs are required for us to become a people-centered health system

# Alignment to Advance People-Centered Care

- Integrates episodic and population-based management
- Gets us closer to one model of care
- Leverages well-established path to success
- Streamlines care coordination
- Scales tools & resources
- Execution, Execution, Execution
