

Roundtable Discussion of HIPAA Security Rule Implementation and Compliance Strategies

**The Tenth National HIPAA Summit
April 7, 2005**

The Next Martha?

Healthcare IT News: March 2005

Agenda

- **Session Objectives**
- **Introductions**
- **Brief Presentations by
Roundtable Members**
- **Questions**

/Answers

/Discussion

Session Objectives

Session Objectives...

During this session we will explore and discuss the following:

- Where should the healthcare industry be at this point in time in relation to the HIPAA Security Rule and healthcare security, in general?
- Where is it really?
- What were/are some of the barriers to compliance?
- How do think the industry managed the “addressable implementation specifications” of the Rule?
- How do you think enforcement will be handled?

Session Objectives

During this session we will explore and discuss the following:

- What technology exists on the horizon that will better enable healthcare security?
- What's in the future for HIPAA Security regulatory updates/refinements?
- What impact will EHR, HIT, NHIN, etc. and other healthcare initiatives have on healthcare security?
- What impact/serendipity effect will recent large-scale incidents involving sensitive data and the increasing paranoia about identity theft by both the public and the Congress have on healthcare security?
- Etc., etc.

Introductions
