

WEDI™

SNIP

Strategic National Implementation Process

2001 A HIPAA Odyssey

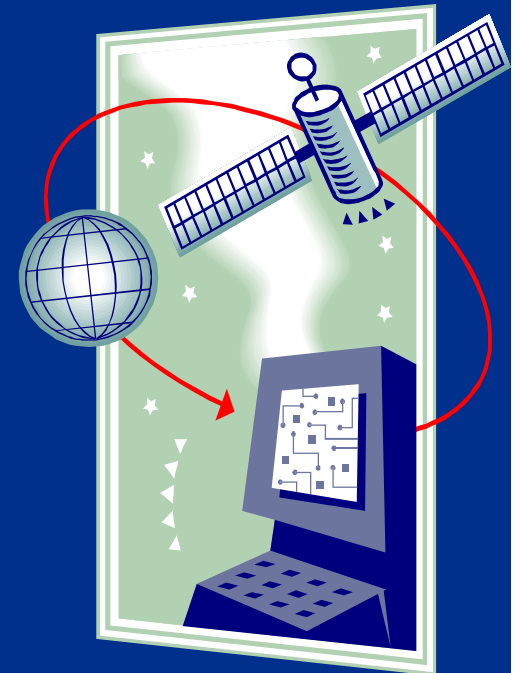

**SECOND NATIONAL HIPAA SUMMIT,
FEBRUARY 28 - MARCH 2, 2001**

Co-Chairs:

Chris Stahlecker, BCBS Association

Rob Tennant, Medical Group Management Association

Larry Watkins, Claredi Corporation

2001 A HIPAA Odyssey

- ◆ **HIPAA Administrative Simplification:**
 - To Boldly Go Where Health Care Has Never Gone
 - Automation, Integration, Simplification
 - Reduced Costs
 - Private Medical Records
 - Secure Systems and Offices
 - **Better Health Care for a Better World**

WEDI™

SNIP

Strategic National Implementation Process

2001 A HIPAA Odyssey

◆ In 2001:

- Does Administrative Simplification mean Galactic Devastation?
 - Will Providers go back to paper?
 - Will Payers implement inconsistently?
 - Will Security & Privacy cost us our businesses?
 - Will we have enough time?
 - Will we all go to jail?
 - Will lawyers take over the world?

WEDITM

Strategic National Implementation Process

WEDI™

SNIP

Strategic National Implementation Process

HIPAA

Administrative Simplification

 **SNIP the Co \$s**

 **SNIP the Chaos**

What is WEDi SNIP?

- ◆ **An industry voluntary solution to the very real, very practical issues of interpretation and work flow inconsistencies surrounding implementation of the HIPAA standards**
- ◆ **A collaborative opportunity for early implementers to assure their interpretation is ‘correct’ (the industry ‘best fit’) and not another proprietary solution**
- ◆ **A collaborative opportunity for following implementers to benefit from the lessons learned, leader experiences**
- ◆ **Ultimate deliverable includes level-set expectations and working implemented baseline standards**

WEDITM

SNIP

Strategic National Implementation Process

Security & Privacy Work Group

- ◆ SPWG Introduction

Security and Privacy Workgroup co-Chairs:
Walt Culbertson - Sue Miller - Frank Pokorny
Lesley Berkeyheiser

WEDITM

SNIP

Strategic National Implementation Process

Why the SPWG?

- ◆ Establish consensus on the most significant health care community-wide HIPAA implementation issues
- ◆ Develop a strategic plan to address these issues
- ◆ Mitigate national deployment obstacles

WEDITM

SNIP

Strategic National Implementation Process

Security vs. Privacy

- ◆ Privacy - an individual's rights to control access and disclosure of their protected or individually identifiable healthcare information
- ◆ Security - an organization's responsibility to control the means by which such information remains confidential

WEDITM

SNIP

Strategic National Implementation Process

Why Privacy was Added to Security

- ◆ There is a direct relationship between privacy and security
 - Security is the ‘how’.. privacy is the ‘what’ and often the ‘why’
 - Security is the structure established to protect IIHI
 - One of the implementation barriers to privacy is the security infrastructure of the Covered Entity
 - Security awareness and education addresses ‘what’ is being protected

WEDITM

SNIP

Strategic National Implementation Process

The Security NPRM and Privacy Final Rule

- ◆ Both security and privacy exhibit many parallel and cross-over issues which would be difficult to coordinate across separate workgroups
 - Both Security and Privacy requirements anticipate ‘audit trails’ and ‘safeguards’
 - ‘Protected health information’ verses ‘individually identifiable health information’
 - ‘Business associate contracts’ verses ‘Chain of Trust agreements’
 - ‘Minimum Necessary’ verses ‘Need to Know’

WEDI™

SNIP

Strategic National Implementation Process

Security & Privacy Work Group

- ◆ **Sub-Workgroup**
Focus on the Issues

WEDITM

SNIP

Strategic National Implementation Process

How did we get here?

- ◆ SNIP Introduced at March 21-22, 2000 Conference
- ◆ WEDI SNIP Conference - June 15-16, 2000
 - Security Proposed Rule Introduction
 - Examined Administrative Procedures, Physical Safeguards, Technical Security Services, and the Technical Security Mechanisms
 - Overviews of Industry Outreaches
 - The HIPAA Security Summit Draft
 - The 1999 Healthcare Internet Security Interoperability Pilot
 - Developed a **security** matrix and **consensus** on 5 key issues

WEDITM

SNIP

Strategic National Implementation Process

How did we get here?

- ◆ WEDI SNIP Forum -Phoenix AZ September 27-28, 2000
 - Security Sub-workgroup Overviews
 - Privacy Overview
 - Developed a **privacy** matrix and **consensus** on 6 key issues
- ◆ WEDI SNIP Conference - January 15-16, 2001
 - reported on the 10 security & privacy subgroups work
 - released discussion draft Version 2.0 subgroup white papers

WEDI[™]

SNIP

Strategic National Implementation Process

Security Sub-Workgroup Efforts

- ◆ Organized Security Sub-Workgroups around the 4 consensus security issues:
 - Awareness/Organizational Change Management
 - Audit Trail Clarification
 - Certification and Accreditation
 - Vendor Technologies and Interdependencies
- ◆ Each of the Sub-Workgroups have produced a White Paper. Version 2.0 can be downloaded at the www.wedi.org web site (Click on SNIP)

WEDITM

SNIP

Strategic National Implementation Process

Privacy Sub-Workgroup Efforts

- ◆ Privacy Sub-Workgroups were formed to address the 6 consensus privacy (and crossover security) issues identified at the Arizona Forum:
 - Preemption
 - Access / Amendment
 - Minimal Necessary
 - De-identify/re-identify
 - Notice Vs. Patient Consent
 - Electronic Vs. Paper
- ◆ Sub-Workgroups have produced new White Papers which are contained in the S&P Version 2.0 document.

SPWG Deliverables

Workgroup Deliverables	Due Date	Date Delivered
Getting Started Document		7/6/00
Combined White Papers Draft 1.0		7/28/00
Draft 1.1		9/8/00
Draft 1.3		9/22/00
Mission and Scope Document		9/11/00
Privacy Implementation Issues Determined and Prioritized	9/28/00 + 10/13/00	
Recruitment of people interested in privacy	9/27 & 28 th and ongoing	
Privacy sub-groups set up		10/13/00
Determination of continuing work in Security sub-groups		10/13/00
Timeline for Privacy & additional Security Sub-workgroups		10/20/00
Version 2.0 of the Security & Privacy White Papers Document		1/8/2001

WEDI™

SNIP

Strategic National Implementation Process

SPWG – Next steps

- ◆ Recruit more workgroup participants
- ◆ Validate Mission and Scope Privacy issues
- ◆ Solicit issues and ideas for possible deliverables based on the Final Privacy Rule (and when published Final Security Rule)
- ◆ Continue Security & Privacy Workgroup efforts:
 - Consolidation of the Awareness , Training & Organization and the Change Management Security Sub-Workgroups
 - ALL Sub-Workgroups will address crossover issues

WEDITM

SNIP

Strategic National Implementation Process

SPWG – Vendor Technologies and Interdependencies Sub-Workgroup

◆ “VTI” Introduction

Sub-Workgroup co-Chair: Lesley Berkeyheiser

Participants: Wynn Hazen - Mark Higgins - Dave Herbison
Suzanne Jones - Lisa MacBain - Marion Reed

WEDITM

SNIP

Strategic National Implementation Process

VTI - White Paper Focus

- ◆ VTI workgroup reconvened
- ◆ Wanted to explore tools and technologies available to assist the industry with next steps
- ◆ Focused this effort on Gap Analysis assistance
- ◆ VTI will revisit this search after final Security is published

WEDITM

SNIP

Strategic National Implementation Process

VTI - Objectives

- ◆ Creation of a questionnaire assuring the following:
 - Each interview content consistent
 - A global understanding of the tool/technology
 - Highlight the strength of each solution
 - Assure that non-biased review and no personal opinions interjected
 - This is NOT a recommendation for any tool/technology or its affiliated company
 - The goal is to assist the industry
 - Create final matrix of findings

WEDI™

SNIP

Strategic National Implementation Process

VTI - Method

- ◆ The VTI Workgroup collected known tools and technologies by:
 - Canvassing the Internet
 - Networking among the health care industry representatives
 - Posting a request for assistance via WEDi' s Security and Privacy Listserv

WEDiTM

SNIP

Strategic National Implementation Process

VTI - Conduct

- ◆ VTI participants were assigned various Products/tools/technologies for purposes of conducting interviews
 - All interviews/surveys used the questionnaire as a boilerplate
 - Some were conducted in person to person format
 - Others were the result of intense web-site research
 - As a courtesy, product representatives were consulted
- ◆ All results were compiled

WEDI™

SNIP

Strategic National Implementation Process

VTI - Survey Questionnaire

- ◆ HIPAA Tool/Technology Survey Questions
- ◆ 1. What is the general description of the tool/technology?
- ◆ 2. For what market has the product been created?
- ◆ 3. How does the tool address HIPAA regulation compliance for EDI, for Security, for Privacy?

WEDITM

SNIP

Strategic National Implementation Process

VTI – Questions- Cont.

- ◆ 4. How is the tool/technology updated to reflect any changes in HIPAA regulations? For what period of time?
- ◆ 5. Would information be made available about the tool/technology support staff and support capabilities?
- ◆ 6. How is HIPAA compliance reported to clients?

WEDITM

SNIP

Strategic National Implementation Process

VTI – Questions Cont.

- ◆ 7. How can a Provider/Health Plan/Clearinghouse purchase/contract/and/or license the service or product?

WEDITM

SNIP

Strategic National Implementation Process

VTI- General Findings

- ◆ Eight tools/technologies were surveyed during this initial research
- ◆ Range from high level “check-list” type focusing only on one area of regulations to fully automated assessment tools
- ◆ White paper includes specific reference and responses for all in detail

WEDITM

SNIP

Strategic National Implementation Process

VTI - Considerations

- ◆ 1. Ideally, the chosen tool/technology should reflect the final regulations and any subsequent updates.
- ◆ 2. The tool should include easy reference to a resource person, email-site, for questions, other guidance or referral.
- ◆ 3. Comprehensive coverage (including direct reference of regs.) are definitely a plus.

WEDi™

SNIP

Strategic National Implementation Process

VTI - Considerations Cont.-

- ◆ 4. Ongoing communication including notification of issues, sticky points, and/or altered interpretation.
- ◆ 5. A helpful tool should include methodical breakdown of requirements into attainable components.

WEDi™

SNIP

Strategic National Implementation Process

VTI - Considerations Cont.-

- ◆ 6. The tool should be user friendly, allow for the development of a historical baseline, and ongoing documentation support during the remediation process.
- ◆ 7. Those tools designed to support smaller organizations must be affordable, and include self-direction.

WEDiTM

SNIP

Strategic National Implementation Process

VTI - Considerations

- ◆ A health care entity's decisions about the depth and breadth of its BIA can be influenced by:
 - Physical Factors/ Size
 - Business Factors/ Acceptable Level of Risk
- ◆ See our white paper more detail on implementation and risk considerations!
