

When faced with a security incident, response time is critical.

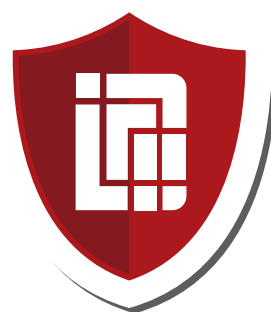

A trusted advisor can help you react quickly.

Davis Wright's information privacy and security team regularly assists companies in preparing for, responding to and recovering from information security incidents. We have six regional teams of specially trained incident responders who are prepared to help your company respond to a potential breach at a moment's notice. We provide a full-service offering that can work seamlessly with your internal business teams and coordinate with other external professionals, as needed.

6 REGIONAL RESPONSE TEAMS

READY TO HELP. ANYTIME. ANYWHERE.

24/7 BREACH RESPONSE TEAM

844-GoToDWT
(844-468-6398)

Davis Wright's privacy and information security team regularly assists companies in **preparing for, responding to and recovering from** information security incidents.

Because every security incident has its own chemistry, Davis Wright offers solutions based on size, location, industry and scope. From lost laptops to sophisticated network intrusions, Davis Wright regularly advises companies, small and large, on how to prepare for, respond to and recover from information security incidents. Our six regional breach response teams include experienced breach coaches that can work with your internal stakeholders to determine whether a security incident rises to the level of a breach under the various state, federal, and international laws. If a breach occurs, we can help your company address whether consumer, regulatory or other notifications are required or recommended, whether there are legal requirements or advantages to providing identity theft protection services, and defend your company in any regulatory inquiry or civil litigation.

You can contact an attorney on our incident response team at any time night or day by calling our toll-free hotline: **844-GoToDWT (844-468-6398)**.
