

Recovering from a Breach: Strategies for Reporting and Responding to OCR

Presented by:

David Holtzman

Vice President for Compliance

Founded in 2004

CynergisTek has been providing services to our clients since 2004, but many of our clients have been with one or both of the founders since well before the company was founded.

Consulting Services

CynergisTek provides consulting services and solutions around information security, privacy, IT architecture, and audit with specific focus on regulatory compliance in healthcare.

Synergistic

The name “CynergisTek” came from the synergy realized by combining the expertise of the two co-founders – building scalable, mature information security programs and architecting enterprise technical solutions.

Considerations of Timing of Breach Notification

HIPAA Notification & the BA Trap

- Without unreasonable delay to individuals affected
- In no case later than 60 days following discovery
- Notification to OCR when individual notice is sent
- Breach “at or by a business associate”
 - Covered entity is ultimately responsible for ensuring individuals are notified
 - Covered entity may delegate responsibility of providing individual notices to the business associate

State Notification Triggers HIPAA Notice

	Florida	California
Information Protected	Expansive definition of personal information	Medical Information Electronic Personal Information
Who is Covered	Any commercial or government entity that acquires or maintains personal information	Licensed healthcare facilities Any commercial or government entity that acquires or maintains personal information
Test	Unauthorized disclosure that could cause harm	Unauthorized acquisition of personal or medical information
Notification and Reporting Requirement	Florida consumers within 30 days. >500 notify AG >1,000 credit bureaus	California consumers within 15 days. Healthcare facilities notify CDPH 15 days. AG computerized information affecting >500.

Attesting to Accuracy of Information

General Contact Breach Notice of Breach and Actions Taken **Attestation** Summary

Please complete the Attestation form.

Under the Freedom of Information Act (5 U.S.C. §552) and HHS regulations at 45 C.F.R. Part 5, OCR may be required to release information provided in your breach notification. For breaches affecting more than 500 individuals, some of the information provided on this form will be made publicly available by posting on the HHS web site pursuant to § 13402(e)(4) of the Health Information Technology for Economic and Clinical Health (HITECH) Act (Pub. L. 111-5). Additionally, OCR will use this information, pursuant to § 13402(i) of the HITECH Act, to provide an annual report to Congress regarding the number and nature of breaches that are reported each year and the actions taken to respond to such breaches. OCR will make every effort, as permitted by law, to protect information that identifies individuals or that, if released, could constitute a clearly unwarranted invasion of personal privacy.

I attest, to the best of my knowledge, that the above information is accurate.

Prepare for the Investigation

The “Omnibus Request”

- OCR Breach Investigation Document Request Letter
 - 15 – 20 separate interrogatories for documentation to meet a specific standard or specification
 - Documentation of incident and response
 - LoProCo breach risk assessment
 - Notification letters to patient and media (if needed)
 - Last HIPAA Security Rule enterprise-wide risk assessment
 - Steps taken to address gaps in last risk assessment
 - Policies, procedures and safeguards to demonstrate administrative, physical & technical safeguards are in place

Key Issues in OCR's Enforcement Cases

- Business Associate Agreements
- Risk Analysis
- Failure to Manage Identified Risk, e.g. Encrypt
- Lack of Transmission Security
- Lack of Appropriate Auditing
- No Patching of Software
- Insider Threat
- Improper Disposal
- Insufficient Data Backup and Contingency Planning

- Most resolution agreements cite to Security Rule
 - Enterprise wide risk analysis is foundation
 - Expectation that encryption is used on all portable and mobile devices & media
 - Encryption of network servers when reasonable and appropriate
 - Managing/controls of device & media
 - Contingency planning

Priorities For Preparation

Get Prepared: Practice Response

- Does each breach response member know his/her responsibilities?
- Do you have documentation to support that there is not unreasonable delay in notification?
- Have you considered what state breach issues will be triggered?
- Do you have your response to the breach portal practiced and planned?
- Are you prepared for OCR's Omnibus Request?
