M.E.D.X

Available on the **App Store**

Available on **Google play**

PROBLEM STATEMENT:
INNOVATIVE PHYSICIAN TOOLS

Solutions that can improve the efficiency of internal processes and allow providers to organize their time more efficiently?

WHAT IS MEDX?

Mobile Encrypted Data Exchange (M.E.D.X) is HIPAA-compliant communication software designed specifically for the healthcare industry to help improve clinical workflows and patient care from a mobile device.
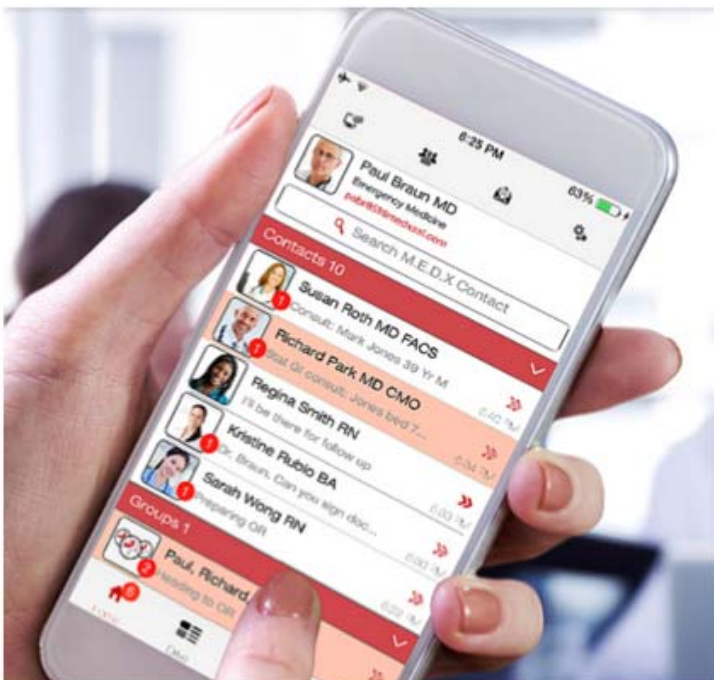

FACTS

80% OF DOCTORS AND NURSES USE SMARTPHONES TO COMMUNICATE VIA TEXT FOR WORK PURPOSES.

68% OF DATA BREACHES COME FROM LOST OR STOLEN PHONES (THE 4TH HIGHEST SOURCE OF HIPAA VIOLATIONS).

WHY MEDX?

DESIGN

Designed by medical professionals, for medical professionals, which assures optimal end-user experience.

QUALITY

Natively coded, custom-made, and vigorously tested cloud-based software.

BRING YOUR OWN DEVICE (BYOD)

Not only exceeds industry standards in technical and device safeguards, but also mitigates risk and lowers costs through its BYOD model.

LET'S REVISIT THE PROBLEM STATEMENT

"PHYSICIANS AND MEDICAL STAFF NEED MORE THAN JUST SECURE TEXT MESSAGING TO ENHANCE WORKFLOWS."

RIKESH PARIKH, M.D. | PLASTIC SURGEON
SEATTLE, WASHINGTON

MEDX FEATURES

EMR

EMR SYSTEM

EMR Integration

MORE THAN JUST HIPAA-COMPLIANT MESSAGING. IT IS A MOBILE WORKFLOW SOLUTION.

WHAT PEOPLE ARE SAYING

"As a surgeon, I need streamlined communication to speed up my day. MEDX allows me to get information that I need about my patients right in the palm of my hand. It's as easy to use as Facebook or Whatsapp, only fully encrypted and faster. I feel safe when I need to send information about patients peer-to-peer. I highly recommend MEDX as a HIPAA-Compliant solution."

Toan Nguyen, M.D., FACS
Breast Oncologic Surgeon

"MEDX has been found to be a valuable tool for us when needing to share and/or discuss confidential information. With staff members already carrying their phones with them, this app became an easy "add on" giving us immediate and safe transfer of information."

Monica A Farrar, MS CRC, LMHC-P
Director, The Resource Training Center
