To Do List for Providers

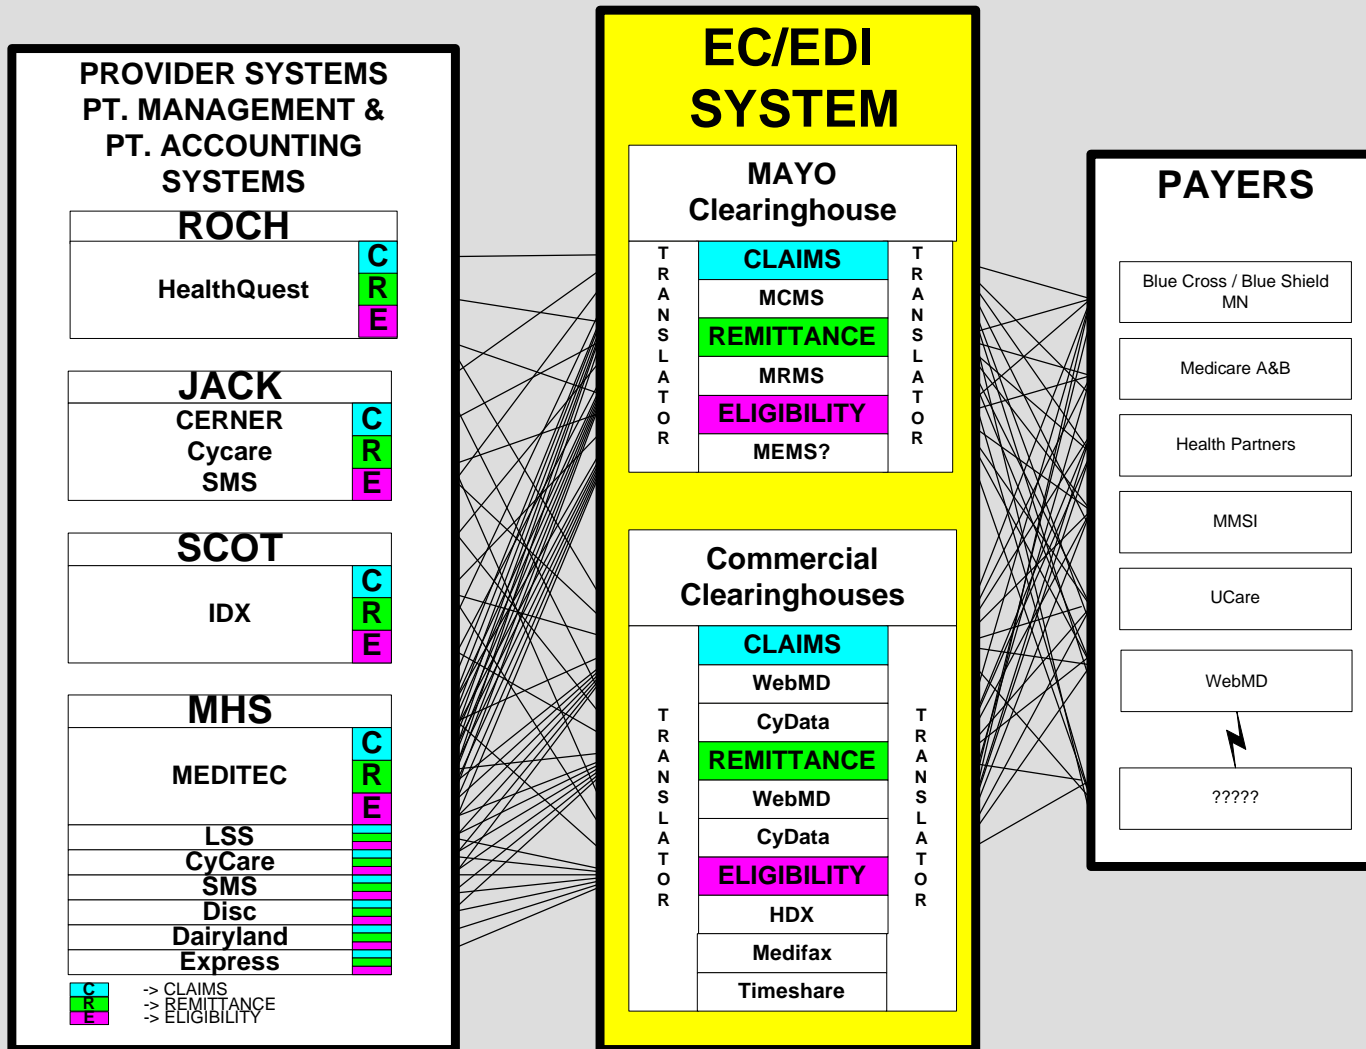

Action Steps for Provider Organizations

- ◆ Identify transactions and codes sets currently in use
 - Determine HIPAA compliance of current transactions
- ◆ Identify information systems and feeder systems
 - Determine HIPAA compliance of current systems
- ◆ Identify clearinghouse partners
 - Determine future relationships
 - Determine “clearinghouse to plan” HIPAA compliance timeframe

To Do List for Providers

- ◆ Talk with vendors
 - Determine if system modifications (upgrades) will be offered
 - Determine if new products will be offered
- ◆ Talk with business partners
 - Determine their HIPAA compliance plans
 - Determine methodology to “secure” business partner relationship
 - Involve legal counsel for all contract revisions

Transactions per IS Staff	4	5	20	19.2	19.67	22.11	20	25.38

Remittance Advice Progress

- ◆ Of our current 43 current Remittance Implementations, all but one is an 835.
- ◆ The 1 proprietary Remittance is converted into an 835 prior to posting.
- ◆ 9 of the 835s are in the 4010 version, the others are all version 3051

Claims Transactions

- ◆ Many of our 88 claims transactions are Version 3051
- ◆ We are working on the implementation of our first Version 4010 837 Professional Claim Transaction.
- ◆ This will go into production for five Mayo entities, but will not be fully HIPAA compliant for a period of time.
