

Utah Health Information Network A Community-Based HIPAA Implementation

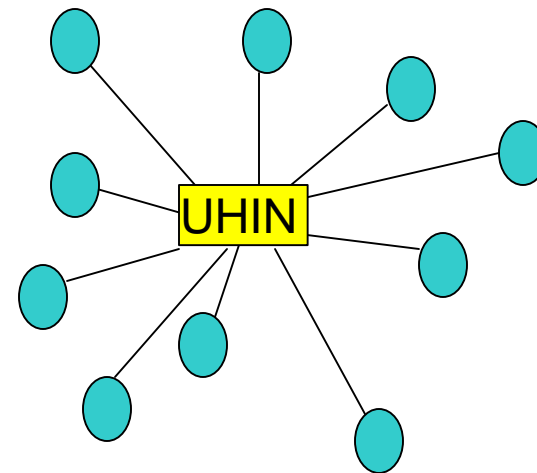

Jan Root, Ph.D.
Standards Manager
UHIN
janroot@uhin.com

Legal

- UHIN created a community-wide electronic commerce agreement
 - Signing UHIN's ECA satisfies privacy requirement for all trading partners in UHIN.

Many ECAs

One ECA

UHIN Standards

- Community-based EDI standards for
 - All transactions
 - Security
- www.uhin.com
- Re-writing all UHIN standards to compliant with HIPAA
- Emphasis is on being implementable

UHIN Provider Software

- Generic
- Based on the HIPAA Standards not on any one member's needs
- (Theoretically) Anyone could use UHIN's software:
 - One size fits all
 - Software handles all HIPAA transactions (and then some)

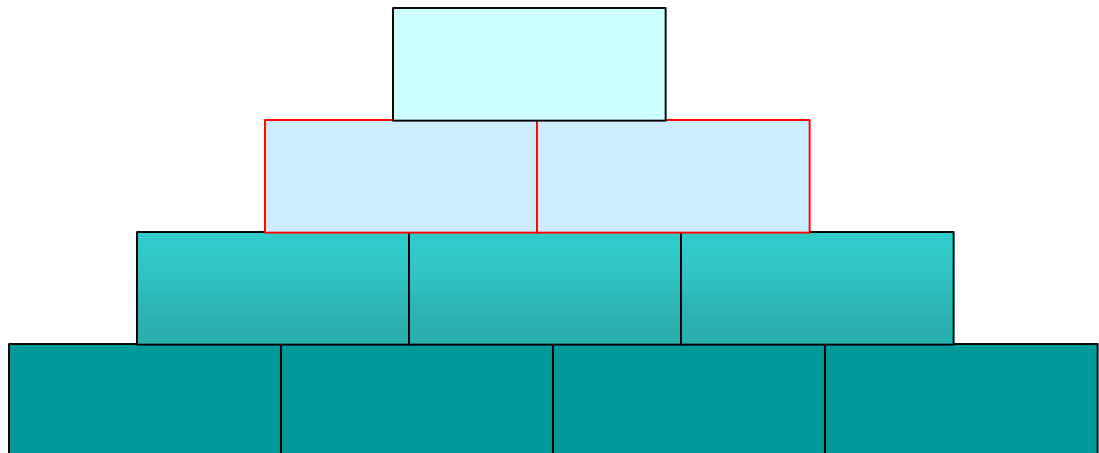

Security and the Small Provider

- UHIN is a community resource
 - Obligation to serve small providers
- USET = UHIN Security Education Tool
 - Walks user through all requirements of Security NPRM
 - Help in writing security policy and procedures
- Goal: Raise awareness of the importance of security
- Reasonable and appropriate security makes good business sense

Community Implementation

- Coordinated implementation of the various transactions
- Community testing
- Sharing problems and solutions
- UHIN members do not compete on EDI

UWIN

- Utah Health Information Network
- Community-based, State not-for-profit
