A Step-by-Step Approach to Implementing Consumer-Driven Health Plans in Small to Mid-Sized Companies

J. Michael Vittoria

Bacou-Dalloz
Bacou-Dalloz: A Brief Introduction

- $1 billion global sales, $400m in the United States
- 1600 Employees in 14 Business Units in US
- 10 Major locations in 9 States + National Sales Force
- 2006 US health insurance expense: $8.6 million
Today’s Agenda

The Health Care Cost Problem

- Introducing a Simple Wrap CDHP
- Adding Multiple Coverage Tiers
- Adding an HSA Option
- Service After the Sale
Bacou-Dalloz: Cost Containment Challenge

- 1600 Employees in 14 Business Units in US
- 10 Major locations in 9 States + National Sales Force
- 5 Health Plans in 2003

Health Insurance Trend

- 2002 $6,616,212 (12.3% increase)
- 2003 $7,132,928 (7.8% increase)
- 2004 $9,764,864 (36.9% potential increase)

Tried Contingent Premium

Funding Gap: When will it occur and how much will it be?
The Health Care Cost Problem in the Context of Our Business Plan

- Threatening corporate profitability
- Straining employee relations
- No end in sight
- No clear cause or solution to the problem
- No way to accurately forecast health costs into the future

Achieving Long-Term Cost Containment Required a Strategy

Key Elements of our strategy:

- Support our overall business plan

- Be consistent with our corporate culture. Understand our benefits relationship with our employees. What is it now and what do we want it to be in the future?

- Be implemented in phases so that employees will be introduced to consumerism gradually, over time
A Solution Must Address 3 Core Issues

- How much can our company afford to spend on health care as a percentage of revenue?
- How much can our employees afford to spend on health care as a percent of their hourly wage?
- Will our employees see their health plan’s features and benefits as desirable, thereby enabling us to attract and retain the best people to our organization?
Our Solution: Phasing in a CDHP

Working with Primarily Care, Inc. (“PCI”) Bacou-Dalloz adopted a hybrid funding arrangement in 2004 to reduce health insurance premiums by carving out certain parts of our insured plans to be self-insured.

- 1 PPO plan plus 2 regional HMOs
- BCBS-RI Covers 1,122 Employees Nationwide
- 3-year plan savings of $7.69 million
- Payroll deductions have remained stable for 3 years
- A lower health cost trend
  - 2004 $7,965,538 (11.7% increase)
  - 2005 $8,320,981 (4.5% increase)
  - 2006 $8,622,024 (3.6% increase)
## Savings Summary 2004-06: $7.69 Million

Today’s Agenda

- The Health Care Cost Problem
- Introducing a Simple Wrap CDHP
- Adding Multiple Coverage Tiers
- Adding an HSA Option
- Service After the Sale
Step 1: Introduce a Simple Wrap CDHP

Modifying your current fully-insured plan into a high-deductible plan will generate immediate savings for your organization and your employees.

<table>

Components to be Self-Funded vs. Insured

- **Long term Hospital**
  - (Complicated pregnancies)
- **Acute Hospital**
  - (Accidents)

- **Long term Outpatient**
  - (Chronic disease management)

- **OVs**
- **Rx**
- **Lab & XRay**
- **Emergency Rm**

**High Severity**
- low frequency
- Fully Insured

**Low Severity**
- moderate frequency
- Self-Insured

**Determining which services are subject to deductible/coinsurance allowed Bacou-Dalloz to limit the range of risks.**
Maximum self-funded exposure in a $2,000 deductible plan with 20% Coinsurance to $3,000 out-of-pocket maximum.
Three Components of a Hybrid Funding Plan

- The Primary Insurance Plan
- The Supplemental Plan
- Flex Account with a Debit Card
Advantages of the Wrap Design

The PCI WRAP plan design permits employers to reduce cost while preserving benefits. By self-funding the deductible & coinsurance expense the employer accomplishes five things:

- Significantly reduces overall health plan costs
- Maintains present level of benefits
- Raises employee awareness as to the value of the benefit they are receiving from the company because the company name is on the E.O.B.
- Raises the level of employee awareness that health costs are increasing rapidly and that change is imminent
- Prepares employees for taking more responsibility for their own health care purchasing and lifestyle
### Actual 2004 Savings: $1,799,326

Today’s Agenda

• The Health Care Cost Problem
• Introducing a Simple Wrap CDHP
• Adding Multiple Coverage Tiers
• Adding an HSA Option
• Service After the Sale
Benefits of the Tiered CDHP Design

The PCI TIER plan design permits employers to reduce cost while requiring employees to take responsibility for designing and selecting their own plan through a menu of differentiated plan designs and corresponding payroll deductions. Tiered plans accomplish the following:

- Significantly reduces overall health plan costs
- Raises employee awareness as to the value of the benefit they are receiving from the company because the company name is on the E.O.B.
- Introduces employees to health consumerism role
- Requires employees to take more responsibility for their own health care purchasing and lifestyle decisions
## Step 2: CDHP with Multiple Coverage Levels

### 2006 Bacou-Dalloz/ PCI 3-Tier CDHP

*Hybrid includes projected self-insured claims of $929,504
Today’s Agenda

- The Health Care Cost Problem
- Introducing a Simple Wrap CDHP
- Adding Multiple Coverage Tiers
- Adding an HSA Option
- Service After the Sale
Our Theme for 2007

Increase employee control, involvement and responsibility for their health care by:

- Redesigning our PPO option to make more services subject to the deductible
- Changing the Pharmacy co-pay to increase employee awareness of the true cost of their prescriptions
- Introducing the next phase of Consumer Driven Health through an HSA compatible health plan with an up-front deductible
- Making Health Savings Accounts available to employees to allow them to save for their current and future health care needs
2007 Health Plan Options

Bacou-Dalloz purchased an HSA-compatible base plan from BCBS with a comprehensive $3,000/$6,000 deductible. This base plan was repackaged into two options:

- A PPO plan that will offer employees coverage that is very similar to our current Blue Cross plan options
- An HSA plan that will allow employees to open a Health Savings Account with a company contribution

Primarily Care will administer all claims under the deductible for employees enrolled in either plan.

Both cover the same services and provide access to the same doctors, hospitals and other providers nationwide.
Step 3: Add the HSA Component

<table>
<thead>
<tr>
<th>Plan Features</th>

</tbody>
</table>

Example of 2007 Bacou-Dalloz/ PCI HSA Compatible Plan

- Individual Weekly Deduction: $23.00, $13.00, $3.00
- Family Weekly Deduction: $59.00, $39.00, $19.00

Example:
- Employer Pays: Base Plan From Carrier
  - Individual: $2,500
  - Family: $5,000
  - HSA: $0

- Employee Pays:
  - Individual: $500
  - Family: $1,000
  - HSA: $250

- PPO Option: Employer Pays
  - Individual: $1,900
  - Family: $3,750
  - HSA: $250

- HSA Option 1: Employer Pays
  - Individual: $1,100
  - Family: $2,250
  - HSA: $250

- HSA Option 2: Employer Pays
  - Individual: $1,000
  - Family: $2,000
  - HSA: $4,000
Benefits of the HSA Compatible Design

The PCI HSA-TIER plan design incorporates all of the benefits of the multiple tier design described in the previous slides. Additionally, the HSA compatible plan permits employees to establish health savings accounts. HSA-Tiered plans accomplish the following:

- Significantly reduces overall health plan costs
- Raises employee awareness as to the value of the benefit they are receiving from the company because the company name is on the E.O.B.
- Actively involves employees as health consumers
- Requires employees to take more responsibility for their own health care purchasing and lifestyle decisions
- Permits employees to establish Health Savings Accounts
2007 PPO Option Summary

Co-payments for Office Visits ($15/$25) and Pharmacy

- Preventative Services (physicals, well baby, etc.) are FREE
- Pharmacy co-pay now 25% ($50 max per prescription)

Deductible of $500 Single/ $1,000 Family applies to most other services

- Lab, X-Ray, MRIs, etc. are now part of the deductible

Employee must show PCI and BCBS Cards for all services. Co-pay and Pharmacy information and the Bacou-Dalloz logo will be printed on the PCI Card.

Employee can use a Flex Account to pay for their out-of-pocket expenses.
2007 HSA Option Summary

Up-front deductible of $1,100 Single/ $2,250 Family applies to ALL covered services except:

- Preventative Services (physicals, well baby, etc.) are FREE

Deductible is cumulative for all family members - but

- ALL services are FREE once the deductible is met.

Participants can use a Health Savings Account to pay for their out-of-pocket expenses.

Bacou-Dalloz will deposit $250 into each employee’s HSA on January 1, 2007.
Explaining the Plan to Employees

- Use multiple communication vehicles to get your message across:
  - Employee Meetings
  - Webcasts
  - Print
  - Intranet
- Clearly explain what is changing – and what isn’t
- Health insurance is a family decision – plan your communication for ease of use at home
- Communication needs to be adaptable for bilingual/bicultural audiences
## 2007 Plan Comparison

### PPO Option
- Weekly Payroll Deduction:
  - $23 Single
  - $46 2-Person
  - $59 Family
- Deductible $500/$1,000
- Everything but OVs & Rx
- Co-pays $15/$25 OV
- 25% Rx
- Use with Flex Account

### HSA Option
- Weekly Payroll Deduction:
  - $13 Single
  - $26 2-Person
  - $39 Family
- Deductible $1,100/$2,250
- Up-front, cumulative
- OVs & Rx are FREE after deductible is met
- Use with HSA Account

---

Targeted Employee Communications Campaign

Flyer #1 – Late August

Purpose:

➢ Get employee attention
➢ Describe the health plan options for 2007
➢ Introduce HSAs
➢ Let them know that more information is on the way

Interested in ways to save money on health insurance next year?

In 2007 Bacou-Dalloz will offer you two health plan options through Blue Cross and Blue Shield: a Preferred Provider Organization (PPO) Option and a Health Savings Account (HSA) Option. Both options will use the same doctors, hospitals, and pharmacies. They offer you comprehensive coverage in different ways with different costs. It is important that you carefully review both plans to decide which is best for you and your family.

New for 2007 – Health Savings Accounts!
You've probably been hearing about HSAs – a new type of account that lets you save money tax-free to help pay for your health care expenses. HSAs are also becoming a very popular way to save money tax-free for your future health care needs (perhaps in retirement). And - because you own your HSA - you control how and when you spend your money. We're excited to be able to offer you this great addition to our benefit program in 2007!

Open enrollment will be held November 1 – 21; new benefits will be effective January 1, 2007

The PPO Option gives you access to comprehensive care with the convenience of fixed copayments for doctor and pharmacy visits.

The HSA Option uses the same network as the PPO option but uses an up-front deductible rather than copayments. You can save for those expenses with a Health Savings Account.
Key Considerations When Choosing an HSA Provider

HSA Debit Card

- Debit card is a stored value card
- A signature based card - no PIN system access
- Consumer may present the card at time of health care purchase at a provider that accepts VISA debit cards
- With a swipe of the card, payment is immediately deducted from the HSA (if prompted, select “Credit”)
- Can not use card at ATM’s to withdraw funds
Key Considerations When Choosing an HSA Provider

Dedicated Customer Service Number

- **1-866-449-9912** Toll Free dedicated number for Participants
- Customer support: member assistance available via automated IVR options 24/7.
- In-person Client Service Representative support available from 8 AM to 9 PM EST.
- Call center staff are trained extensively.
- Calls are logged and those requiring research are responded to within 24 hours.
Key Considerations When Choosing an HSA Provider

My Account for HSA Participants

@ www.wfhbs.com/bcbsri

- Full transactional capability
- View account balances, fund performance, online prospectuses, fund descriptors...
- Automated confirmations of all transactions
- Secured site
- Available 7 days a week / 24 hours a day
A Variety Of Investment Options Ranging From:

Money Market - Conservative - Moderate - Growth Aggressive - Diversified

Wells Fargo Funds Management, LLC, a wholly-owned subsidiary of Wells Fargo & Company, provides investment advisory and administrative services for the Wells Fargo Funds. Other affiliates of Wells Fargo & Company provide subadvisory and other services for the Funds. The Funds are distributed by Stephens Inc. Member NYSE/SIPC. Wells Fargo & Company and its affiliates are not affiliated with Stephens Inc.

An investment in a Wells Fargo money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although Wells Fargo money market funds seek to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in a money market fund.
