

Stay In The Boat

Wyatt Easterling
Considerable Music, ASCAP

We can't know what tomorrow might bring
What surprises will be waiting
Could be the sweetest lover you'll ever know
Sent here to teach you a new way to float

When loneliness bites like a bitter cold night
You can no longer find a reason left to fight
Remember we're just here on a one-way ticket ride
In all its glory this is the time of your life

Stay in the boat, stay in the boat
It's not your time for goodbyes
This ain't all she wrote so tear up that note
This is design so let it shine
Reach out and find your peace of mind
And stay in the boat

What makes me think I've got something you want to hear?
What could I know about your losses and fears?
Well I've been caught in the storms of life once or twice
And in a moment of panic I almost stepped out on thin ice

Then I heard:
Stay in the boat, stay in the boat
It's not your time for goodbyes
This ain't all she wrote so tear up that note
This is design so let it shine
Reach out and find your peace of mind
And stay in the boat

We come into this world on a wing and a prayer
Come tumbling in right out of thin air
We grab on tight for the ride of our life
When it's time to go don't you know He'll turn out the light

Stay in the boat, stay in the boat
It's not your time for goodbyes
This ain't all she wrote so tear up that note
This is design so let it shine
Reach out and find your peace of mind
And stay in the boat, stay in the boat
