# But we have challenges...

Vulnerable, resourceintensive populations

Acute exacerbation of chronic illness

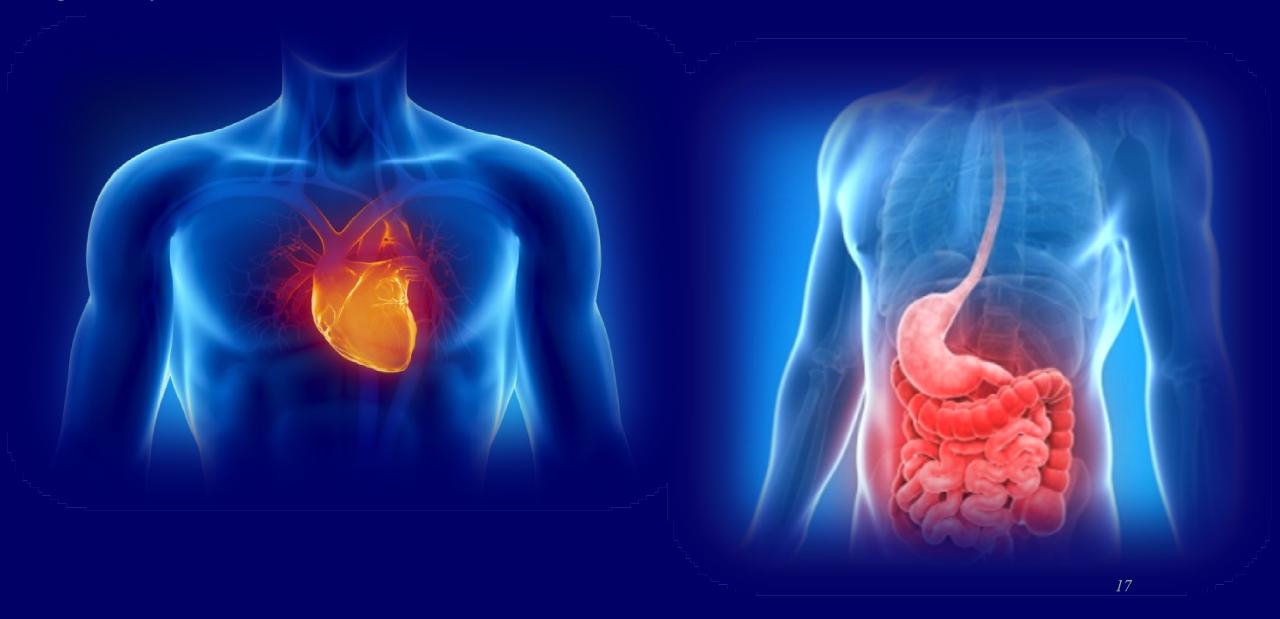

## **Focus on acute, expensive, high-risk pops.** *E.g., frail elderly*

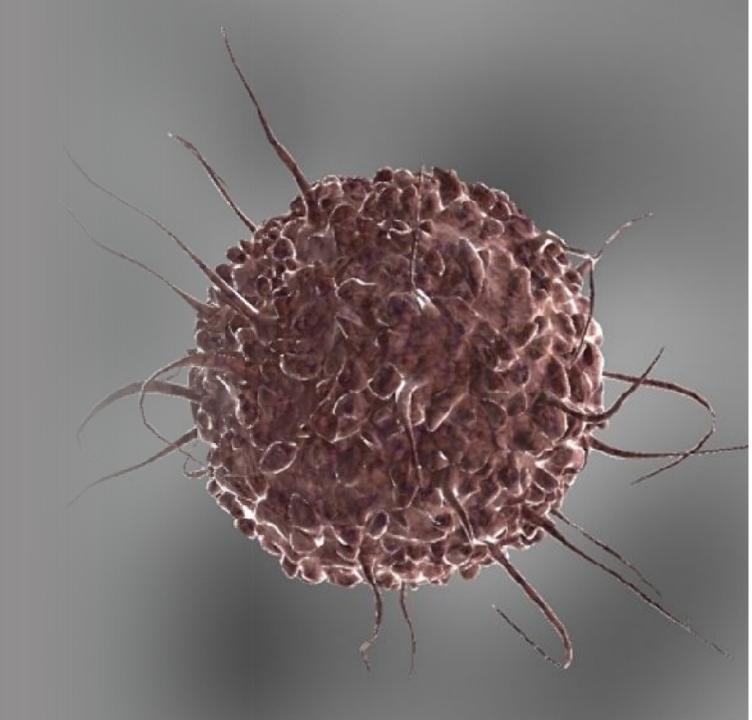

### Address complex illnesses that have acute flare-ups

E.g., atrial fibrillation, Crohn's Disease

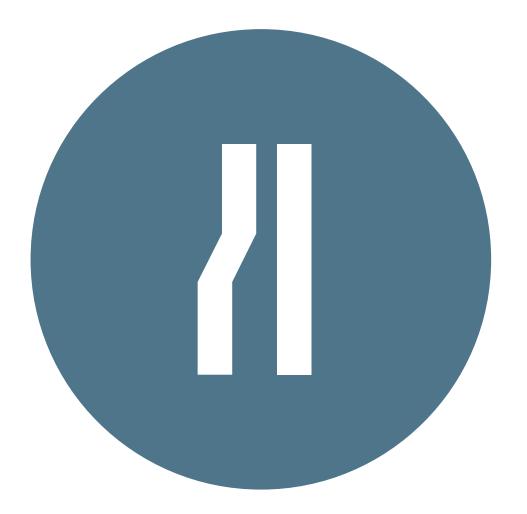

## Finally penetrate cancer care

#### **Update accreditation**

Reflect health plans' roles as supply-chain managers

#### **Evolve measurement**

Measure from clinical workflow, not separate processes

#### Be uniform, but not duplicative

- Eligible provider
- Group
- CIN/ACO
- Facility/health plan
