The Program Has Grown

Source: Volume & Program Size data as of the July 2018 reconciliation for episodes initiated between 2013Q4-2017Q4 by all Model 2 and Model 3 providers. Demographic data as of the July 2018 reconciliation for episodes initiated between 2017Q1-2017Q4 by all Model 2 & Model 3 providers. BPCI Advanced projections based on June raw claims delivery from CMS and reflect active episode initiators as of November 12, 2018.

Success Ingredients

1. Pick the right episodes – no variation, little to no opportunity
2. Pick the right post-acute care providers – a high performance post-acute network saves close to 2K/episode
3. Manage the SNF admissions – reduce readmissions, improve transition to PCP care

**POWERING
THE POSSIBLE**
