

How 12 People Saved \$12 Million – Pop Health Made Easy

*Tom Boosinger, CEO and Founder,
Synaptic AP*

1.Knowledge is Key

2.Data has a shelf life

**3.Make the right thing easy to
do**

Simplicity is our friend

- **Work began in 2009**
- **Was led by Sebastian Thrun, the former director of Stanford's Artificial Intelligence Lab**
- **Has around 200 people working on it**
- **Each car has approximately \$150,000 worth of equipment including a \$70,000 Lidar**

Fun Fact - Last week, one ran into a bus...

- Is led by George Hotz
- Work began in late 2015
- Has approximately 1 person working on it
- It has \$20,000 worth of equipment including components from Amazon and auto-supply shops
- The prototype is in use and on the road in California right now

He chose simple, and it's working

Another group that chose simple...

\$175-200
Million

Back Story

- Gathered demographic information and claims data
- Care management now, but results later?!?
- An unacceptable feedback loop – had to go faster
- Knew if they could reduce hospitalizations, they'd make a difference

Simple Approach

- 1.** When Joe sets foot in or out of a hospital in MI, Reliance knows instantly
- 2.** Reliance calls Joe
- 3.** Reliance schedules Joe's appointment and shares the information with his PCP
- 4.** Joe goes to his appointment
- 5.** Reliance follows up to make sure Joe is on a good path

The Challenge

Call within 24 hrs

Confirm PCP visit is scheduled

**Ensure visit is
completed**

The Practice

This isn't novel - the Camden Coalition's published 7 day pledge

Patients ***with*** a 7-day PCP 30-day readmission rate

24

8%

Patients ***without*** a 7-day PCP 30-day readmission rate

100

28%

**Reliance ACO #2
nationwide among
new ACOs with**

\$12M

in savings with Synapse

The Results – ER visit awareness

10% Before Synapse

90% With Synapse

The Results – % of Managed Discharges

10% Before Synapse

99% With Synapse

The results – % of patients with PCP within 1 week

20% Initial Average PCP Intervention

50% Reliance ACO At Synapse Launch

80% Reliance ACO Today

Now, That Is Neat!

Now when Reliance is notified someone registers in the ER and an ACO physician is available at that hospital to engage with the member, they were able to redirect preventable readmissions.

With Synapse Reliance was able to:

Making the Right Thing Easy to Do

- **Prioritized queues for coordinators**
- **A unified picture of the patient**
- **Integrated rules and workflows engine**
- **Scheduling and persistent follow up**
- **Learning and best practices management**

Future Opportunities

- In-home and mobile engagement
- Enhanced connectivity
- Improved scheduling
- Smart devices
