

Empowering communities to take control of their collective wellbeing through the exchange of art, music and wellness.

Values

Radical

2019 marked the 10th annual Kingston festival. O+ continues to be guided by its belief in local relationships, providing healthcare to underinsured creatives, and the medicine of art.

Compassionate

O+ believes that art, music and wellness should be accessible to everyone. We were moved by the response to the free wristbands, which was made possible by the NeighbO+r Fund drive.

Creative

O+ aims to inspire the community by showcasing its musical diversity, and by presenting workshops, film screenings and enduring works of art that address social justice and environmental issues.
