

KAISER PERMANENTE
SCHOOL OF MEDICINE

Population Health in Undergraduate Medical Education

Paul Chung, MD, MS
Professor and Chair, Health
Systems Science

March 19, 2019

KPSOM and Population Health

Mission

To provide a world-class medical education that ignites a passion for learning, a desire to **serve**, and an unwavering commitment to improve the health and well-being of patients and **communities**.

Vision

Our graduates will be a diverse community of compassionate healers, lifelong learners, and courageous **leaders of change** within the profession and in society. They will have the skills, capabilities, and resilience to lead the **transformation of healthcare delivery** in the nation, and a lifelong commitment to the highest values of the profession.

KPSOM Basics

- 48 students per class starting summer 2020
 - Equity, inclusion, and wellness are major priorities
- Leverages KP's integrated healthcare system
 - Most (but not all) clinical experiences are in KP clinics and hospitals
- Not a training ground for KP
 - Graduates will be prepared for primary care and specialty residencies in diverse settings across the country
- Pedagogies
 - Flipped classrooms, case-based small group and team-based learning, community engagement, simulation
- Curricular strategies
 - Longitudinal clinical experiences from year one; integration of basic, clinical, and health systems sciences; interprofessional learning
